January 2014 Updates

Donner has come a long way from wandering the streets of Halethorpe

2014 is going to be a big year for FFR. We have a lot of plans in store for the community both inside and outside our facility. First, we are giving our volunteer program a complete overhaul and expanding the available positions. In addition to Administrative Assistant, we will have a Grant Specialist along with a Media and Fundraising Coordinator. We are also splitting the Adoption Center Associate position into Kennel Assistant and Adoption Specialist. The Page position will assist in both administrative and adoption center responsibilities as needed. Later in the year, we will be working with local schools to add our organization to the list of ways students can earn community service credits.

Our current administrative assistant Glenda Douglas along with vet tech and owner Shawn Zates will be spending the month expanding the descriptions of our adoptable pets on Petfinder.com in efforts to gain our furry friends more attention.

With the success of our last fundraiser, we are able to expand our cat wing to accommodate 10-15 more rescued felines. We hope to finish this project by November. Last year we obtained the West Motors Betty White Grant totaling \$5,000. This year we will be applying for the \$3,000 All-Star Community Service Grant and the \$5,000 Footprints of Baltimore Grant. Along with these grants there will be several fundraising events throughout the year. We have our Annual Walk for Bully Breed Legislation in April and the Vegan Bake Sale in May. If you wish to participate in the walk or want to bring a dish to the bake sale, email Glenda Douglas at info@FFR.org.

We hope you will join us in what is expected to be a *Walk for Bully Breed Legislation 2013* prosperous year for our organization and animal advocacy as a whole. Stop by and see the wonderful puppies and kitties we have available like Sasha, the three-legged Pomeranian who loves to run.
